

Dear Parent/Carer

**Re: Arbor Access**

I am delighted to inform you that we are now able to give parents and carers access to Arbor. This system allows us to share important information with you and allows you to update personal information about your child such as change of address, telephone numbers, medical updates etc. In future you will also be able to book appointments with class teachers, read your child's attainment data and receive reports directly through this system.

All parents are registered to the system via the email address given to the school. To finish creating your account you just need to set a password. Your username is the email address we've sent this email to.

Go to <https://login.arbor.sc> and click **Forgot your password?** to finish setting up your account.

The Arbor App can also be downloaded free of charge from either the Playstore on android phones or the Apple Store on iPhones. Notifications can then be sent directly to your phone.

If you have any questions or require further assistance, please contact the school office.

Kind regards

Mr S Silverwood  
**Head Teacher**
